

A+CA Presents

# Webinar Series :Mass Timber Use in Building Construction

## Mass Timber : A Project Manager's Viewpoint

February 16, 2022 at 4pm EST

Presented by Taylor Cabot, Project Manager, Timberlab

Taylor Cabot, Project Manager, trained as an architect and transitioned into construction when a mission to build community-minded and resilient structures led her to embrace mass timber. Most notably, her work on Carbon12 in Portland, Oregon garnered her a Women of Vision award. With Swinerton and now, Timberlab, Cabot has completed a variety of projects, including the procurement and project management of Ascent, the tallest hybrid timber structure in the world.
